

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	30 September 2026
Team ID	9100suicidesquad
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
1 hour to collaborate
2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A Team gathering
Sribaskar S (Team Lead), Santhanamarimuthu K, Gowtham M, Bharath E and Sanjay D joined the session and shared their roles.

B Set the goal
Automate standard laptop orders in ServiceNow so a configuration task is created and assigned to the Hardware team after approval, using Flow Designer.

C Learn how to use the facilitation tools
Followed the key rules of brainstorming: stay in topic, defer judgment and go for volume.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM

How might we automatically create and assign a configuration task to the Hardware team once a standard laptop request is approved?

Key rules of brainstorming
To run a smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP

Each team member listed ideas for how Flow Designer can automate standard laptop orders.

Sribaskar S (Team Lead)

Create flow 'Standard laptop task'

Add Service Catalog trigger

Add Create Catalog Task action

Santhanamarimuthu K

Order laptop via Service Catalog > Hardware

Approve request from Approvers section

Verify catalog task in Requested Item

Bharath E

Attach flow in Maintain Items

Remove other automations in Process engine

Test flow on Standard Laptop item

Sanjay D

Set short description 'Laptop need to Configured'

Assign task to Hardware group

Set Approval field to Approved

Gowtham M

Document each milestone

Write the conclusion

Check flow execution in Flow Designer

3

Group ideas

Similar ideas were clustered together and each cluster was given a sentence-like label.

20 minutes

Build the automation flow

Create flow 'Standard laptop task'

Add Service Catalog trigger

Add Create Catalog Task action

Configure the catalog task

Set short description

Assign task to Hardware group

Set Approval to Approved

Attach the flow to the catalog item

Attach flow in Maintain Items

Remove other automations

Test on Standard Laptop item

Order, verify and document

Order & approve a test request

Verify task in Requested Item

Document and conclude

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes
